SURPLUS FOODS

"Buy Extra Eggs." That's a plea to housewives from the harassed war food administration.

Seeking to make room in commercial cold storage plants for eggs it has bought in support of farm prices, Marvin Jones, war food administrator, requests every family to store an extra dozen in its refrigerator. This would make room for approximately 25 million dozen eggs now in freight cars waiting to move into storage. It will also make it unnecessary for the government to continue to sell good eggs at five cents a 30-dozen crate to be made into tankage feed for livestock. This happened last week. Potato dehydrators work day and night to finish their chore before warm weather encourages the raw material to grow too many machine-clogging sprouts. Western beet sugar factories have been turning excess spuds into dried pulp which is used as livestock feed or converted into commercial alcohol. The government encouraged heavy potato production, then found itself with a glut on its hands and a potato-satiated home front.—Wall Street Journal.

PRESIDENTIAL NAMES

Forecasters calculating the 1944 presidential chances will find some light in the first names of our 31 chief executives.

Curious facts emerge. The most common name is not John, borne only by the two Adamses and Tyler, but James, the first name of Madison, Monroe, Polk, Buchanan and Garfield. There have been three Williams, all from Ohio—Harrison, McKinley and Taft. Only two other first names have

been owned by more than one president. There were Andrew Jackson and Andrew Johnson, and what may surprise many, another Franklin, whose last name was Pierce.

The remaining 16 chief magistrates, or more than one half, were, as regards Christian names, non-repeaters. The country has been governed by only one George, Thomas, Martin, Zachary, Millard, Ulysses, Rutherford, Chester, Grover, Benjamin, Theodore, Woodrow, Warren, Calvin and Herbert. There have been no Charleses, Edwards, or Richards. And of course there was only one Abraham.

The conclusion, if any, is that the owner of a new name has five times as much chance of being president as a John or a William, and 16 times as much as the bearer of any name already listed. Maybe the aspirant should change his name. Presidents have done that. Some have dropped their first names, as witness, Thomas, Woodrow Wilson and Stephen Grover Cleveland.—Ocala Star Banner.

'GLADES BEAN

Unfortunately I missed seeing it but Rene Portebour brought in a product from his place at Citrus Center one day this week which must have been something to behold. It was an Alabama bean, some 25 inches long and several inches in circumference which he says is edible and delicious and may be prepared in a number of different ways.

Strikes he that here may be the answer to the "glades bean" grovers problems. It wouldn't take many of them to make a hamper.—Cur Settle in Democrat, Glades County.

SAID A MOUTHFUL

A certain mother wished to enter her five-year-old daughter in a kindergarten, the age requirement of which was six. To the disapproving teacher the mother explained, "She can easily pass the six-year-old test."

"The little girl surveyed the teacher with dignity, and turning to her mother, asked 'Turkey irrelevant words?'—Cocklebur.

About People We Know

Everybody in Belle Glade and immediately close in the vicinity of the Farming Region knows Hubert Tillery, general manager of the Alfalfa plant in Belle Glade. Hubert looks over management of the plant several years ago and business has grown steadily ever since. Recently the company completed a spacious addition to the plant which allows for much more modern space to handle the conversion of help and transportation difficulties increasing daily. The Alfalfa group seems to go out of its way to keep the public happy.

Workmen are completing work of rebuilding the Fred Hickerson packing house in Canal Point. A new floor has been put in and the grading belts will be overhauled in the various departments. Fred Hickerson and Bill Jones will operate their farming and packing interests as the Fred T. Hickerson Company. The three grovers are opening up a large development on West Palm Beach canal of Canal Point where they are bringing into cultivation a section of muckland. New buildings have

been erected there to take care of the deal. Mr. Hickerson will not be connected with the Consolidated Packing company in Canal Point next season. Brandon Brokerage company and Sam Chastain, broker, will make up the Consolidated concern next season.

Grady Boynton in Canal Point is in the elderberry business in a big way. This week he is running a little ad which says that he will pay \$1.65 per bushel of 50 pounds delivered to the State Market platform. Mr. Boynton points out that the berries must be picked with short stems. In fact the stems must be broken off close to the cluster of ripe berries. There must be no red or green berries in the cluster for maturity these would cut down on the price. Four solid carloads of elderberries were shipped to the New York market last week, Mr. Boynton said.

Phokee post office is "manned" by six Phokee women. Several months ago Postmaster E. A. Jensen decided he wanted to do his part for Uncle Sam and joined the S. A. B. Since that time Mrs. Alline Elarbee has been acting postmaster. She is ably assisted in the various departments by five Phokee women who are always alert to the needs of the patrons of the office. Mrs. Elarbee's capable assistants are Mrs. Vera Gammage, Mrs. Frank Rozelle, Mrs. Jack Phillips, Mrs. Lawrence Jackson and Mrs. E. A. Jensen.

Mr. and Mrs. Francis Cross left on Tuesday of this week for Hot Springs, Arkansas where they will spend four weeks. Mr. Cross mentioned this reporter that it would be his tenth trip to the health-giving spa. They were lucky enough more than a month ago to get reservations out of Jacksonville.

Most everybody in the Glades remembers Eustice Willis, former editor of the Belle Glade Herald. Eustice joined Uncle Sam's forces a long spell back and now wears a bar on his shoulder. Since entering the service Eustice Willis has married. An announcement this week received by his sister, Mrs. Johnny Miller in Phokee was to the effect that a new daughter arrived at their home on Father's Day June 18. Eustice said in a note to Mrs. Miller that a nice Father's Day present couldn't be denied. He is stationed at Fort

Bragg and his wife lives in Raleigh, N. C.

Speed Limit Is Being Exceeded

More than two-thirds of the nation's motorists are exceeding the wartime speed limit of 25 miles per hour on the open highway, the National Safety Council reported recently. Furthermore the council said, 17 per cent of all highway drivers are traveling at more than 45 miles per hour.

These figures are based on nationwide checks made periodically by the U. S. public roads administration, which recently reported that speeds have increased steadily since Dec. 1, 1942.

"With speed increasing, and automobiles and tires deteriorating month by month, we may have sharp rise in traffic fatalities with the summer months," Donald J. Barry, director of the traffic and transportation division of the council said.

"This increase which is evident despite wartime restrictions and patriotic appeals to the public, may be a forerunner of higher

speeds than ever before when peace comes and restrictions are lifted. That is why we must plan now to cope with what we believe will be the greatest traffic menace this country has ever seen." Chief Joseph Knochel of the Milwaukee, Wis., police department, recently was named chairman of a national committee to deal with the problems of postwar speed regulations. Representatives of national organizations which deal with the speed problem form this committee.

Ohio has more chambers of commerce than any other state.

THE OLD JUDGE SAYS...

"I can't think of anything else you'll need for your Victory garden, Judge... you've got pretty nearly everything."
"I think so, too, John. Ever get your apparatus patch going?"
"I gave that up last year, Judge. Tried it six years in a row with no luck. Just haven't got the right soil, I guess?"
"Well, I think you're wise, John... no use keeping on trying things you know won't work. Just like prohibition. State-wide prohibition has been tried in this country

seventy-two times in the last ninety years. It has been adopted forty-seven times in the past thirty-three years and discarded everywhere except in three states. Same thing was tried in eight provinces in Canada and in Norway, Sweden, Finland and Russia but it was an admitted failure and universally abandoned."
"The reason is prohibition does not prohibit. All you get is bootleg liquor instead of local liquor, plus no end of crime and corruption."

SOME DAY Another Train Will Come

"A hurried goodbye... the brave reassuring words of parting... the long train dwindling in the distance... a son was off to war."
Months of lonely waiting lie ahead... waiting and praying for the day when another train may come down those same tracks bearing that son and others safely home.

The vast armies in the field are counting on us to do our part. Buying more bonds than before... unselfish sacrifice for a common cause... keeping supply lines open by avoiding unnecessary trips... the way we perform our homefront tasks... all assume a new importance.

Sons of hundreds of our Florida East Coast Railway families, too, have gone to war. Many of our fellow workers have joined the fighting ranks. Putting the troop trains through, keeping the freight rolling with equipment and supplies is vital to us as well as you.

The ability and determination of the Florida East Coast Railway and other railroads to effectively meet the quickening demands of war is helping to speed the day of final Victory... that day when other trains will come bringing your boys and ours back safely home... back home of last to stay.

Cinematic Chatter

By Malcolm Miller

On Sunday-Monday at the Prince Theatre, they are screening one of the most interesting stories of one of the most interesting characters known to novel readers, "Jack London," for that is the man whose life is revealed in its showing.

In the cast are Michael O'Shea, Susan Hayward, Frank Craven and Ralph Morgan.

The story takes up the life of

London when as a young man he was learning the oyster and fish planting racket on the Pacific coast. It was at this very time he was trying to express himself in writing. The story carries him into his gold prospecting days in the Yukon, an experience that brought forth some of his finest adventure stories, and teaches a lesson with his experience in the Russo-Japanese war.

You can be assured there is not one dull moment in the entire unrelenting of this picture.

Henry Aldrich may have laid

you right in the alleyway at the Prince Theatre when you sat through his "Haunted House" picture in this one he is set to garner some more whopping laughter. For on Tuesday-Wednesday he comes back with "Henry Aldrich, Boy Scout."

In the picture with him are Charles Smith, John Littel, Olive Blackeny, Darryl Hickman and Joan Kentner. All of whom turn in grand performances in unrelenting the story.

Well, Belle Lugosi returns to our screen Thursday-Friday in another of his horror pictures.

This one he comes in with is "The Return of the Vampire" and assisting him are Frieda Inescort, Nina Foch and Miles Mander. According to press stories the picture is not without merit. It has a rather good story and the clever performances of all in the cast make it a very interesting picture. At any rate don't take my word for it, see for yourself.

On Saturday we find a real up-and-coming Western cow boy under the title "Riding West." It boasts a story a little novel from the average Western picture and an all star cast to reveal the story. So with that to go on, it should be a fair show.

You hear a lot of talk about this war . . . but you can't believe a dang word of it . . . unless you are one of those suckers who fall for every idea someone wants to put out.

Some have been saying if we stop buying War Bonds now the war will be over. You know, it will be over . . . over for all the free peoples in the world. Hitler wants us to stop buying bonds . . . but you can't believe a dang word of it . . . unless you are one of those suckers who fall for every idea someone wants to put out.

You just keep buying war bonds and investing in the war. You know, it will be over . . . over for all the free peoples in the world. Hitler wants us to stop buying bonds . . . but you can't believe a dang word of it . . . unless you are one of those suckers who fall for every idea someone wants to put out.

See you at the movies — Mal.

Christmas Mail Suggestions

The following instructions concerning Christmas mail for our armed forces overseas has been received by Acting Postmaster Mrs. Alline B. Elmore, of Pahokee from the Post Office Department.

The term "armed forces overseas" includes the personnel of our armed forces who, receive their mail through an A. P. O. or a Fleet post office.

Christmas cards and Christmas parcels for personnel of the armed forces overseas must be mailed during the period beginning September 15, 1944, and ending October 15, 1944. Greeting cards for soldiers overseas must be sealed in envelopes and prepaid at the first-class rate. Patrons should endorse each gift "Christmas Parcel."

Christmas packages shall not exceed the present limits: 5 pounds in weight or 15 inches in length or 36 inches in length and girth combined. Only one Christmas package will be accepted from the same person to the same person in the same week.

It is necessary that all articles be packed in boxes of metal, wood or solid fiberboard, and tied with strong twine. Each miscellaneous article should be separately wrapped and tightly packed. Perishable matter will not be accepted. The sending of fragile articles or any food is not advisable. Intoxicants, inflammable materials, and poisons or compositions which may kill or injure another are unsuitable.

Mail for personnel of the Navy, Marine Corps or Coast Guard may be accepted for registration or insurance if it conforms to existing requirements as to weight, size and content and it is advisable that all Christmas gifts for personnel of these branches be registered or insured. Use of postal money orders is recommended to transmit gifts of money to members of the armed forces outside the United States.

Restrictions Lifted On Farm Slaughter

According to Charles B. Spofard, Jr., area supervisor, war food administration, Miami, restrictions on farm slaughter of livestock have been removed.

Until further notice, this means farmers may kill any kind of livestock without limit, without any permit or license and deliver meat to persons not living on the farm.

It should be clearly understood, however, that this removal of restrictions applies only to the farm slaughter of livestock, and the farmer is defined as any person who is chiefly engaged in producing agricultural products as a resident operator of a farm. The farmer must own the livestock at

the time of slaughter. In other words, an individual doing business in a given place who is not chiefly engaged in farming as a resident farm operator is still required to make application and obtain a permit or license before he can do any butchering of cattle or calves.

It is also well to stress that these farm slaughterers are still required by OPA to collect the correct amount of ration stamps for meat delivered to persons not living on the farm and to observe ceiling price regulations.

Bow Your Heads

THIS is Invasion! Now in the hearts, brains and muscles of our American Youth lies the future of our country.

Bow your heads. Pray with millions of mothers the country over, as their hearts reach out over the seas, each one seeking out her boy, to protect him with the shield of her love.

Believe that in this world there is definite strength in decency and honor. Believe that in our devotion there is moral force. Believe that our *will* to victory will aid that victory.

Seek and ye shall find!

Let us seek added strength and fortitude for our men in our own sacrifice and devotion.

Let us focus every thought, every action, and every prayer on the boys fighting for us.

And, while each one bends to his task with ever-growing fervor and energy, let us adopt a common symbol as our faith in Victory.

Let that Symbol be War Bonds. Let us pour our money in a gigantic flood of goodwill toward our sons and brothers, as a spiritual shield for them.

This is the Invasion. The lives of our boys are at stake. Let them see that the Soul of America is with them.

Let it not be too late... not next month, next week, or tomorrow, but today... *now*.
